

Treasurer's Report 2016-2017

Over the year April 2016 to March 2017 we are pleased to say that the underlying financial health of the Association has been stable.

During the year there have been a small number of payments which have been 'one off' payments, relating to earlier years. We have also been operating without a paid administrator since September of last year which has helped the improved financial stability of the association.

We are pleased to be able to say that, in the current year to date, we have been able to maintain this stable financial position.
