

Adult Maths Network – Free Professional Community for Teachers

The Adult Maths Network is a free professional community for teachers of adult maths in a wide range of settings, including FE colleges, adult and community learning, and workplace learning.

The network provides opportunities to:

- Share ideas and effective practice
- Explore approaches to supporting adult learners in mathematics
- Connect with colleagues who face similar challenges

Membership is open to all practitioners teaching maths to adults.

Further details and registration are available here: [Adult Maths Network](#)
