

The National Association for Numeracy and Mathematics in Colleges (NANAMIC) provides professional development for numeracy and mathematics teachers and is a voice for the post-16 learning and skills sector.

October 2022

NANAMIC Update

October 2022

Thoughts from the chair

We were very pleased with the attendance at our Zoom conference this year. Many were able to attend who would have been prohibited from attending a face-to-face conference because of the costs and being able to be released for a full day.

Those who attended the conference were sent a link to be able to watch any of the sessions on our YouTube channel, but I am aware that at least one college did not receive

this email, possibly because it contained a hyperlink. These videos are available for **all who are members of NANAMIC**. If you would like to receive the link, please email admin@nanamic.org.uk.

We are excited to announce that the five mathematics associations have agreed to hold a joint conference during the Easter holidays. The other four associations usually hold their conferences at that time of year. Planning meetings are taking place and it is anticipated that there will be speakers for the post-16 teachers as well as those working in schools.

MathsHUBS

Please book the date. It will be a residential conference at Warwick University on Monday 3 and Tuesday 4 April 2023. More details will follow soon but book the date and check if your employer will fund your attendance.

Some of you may be involved in working with students with special educational needs. I have mentioned previously that our colleagues at the Mathematical Association produce a free newsletter, [Equals](#), specifically for those working with SEND learners from 5 upwards. The Equals team have arranged their first conference for Friday 25 November 2022. Full details and a link to the booking form can be found on page 3.

John

NANAMIC is delighted to announce that it is working with all other associations in order to provide a joint **Conference of Mathematics Subject Associations** for its members, in 2023. The theme will be *Finding the Common Factors*.

Updates from the Society for Education and Training (part of the Education and Training Foundation):

[The ETF Professional Standards for Leaders](#)

In our previous newsletter we mentioned that the review of the 2014 Professional Standards for Teachers and Trainers had been completed, following a lengthy consultation with key sector audiences and the feedback provided by the Society for Education and Training Practitioner Advisory Group.

They have now produced Professional Standards for Leaders and aspiring leaders which can be found on their [website](#).

Further information on Professional Standards, SET and other topics related to the Further Education and Training sector can be found in the Society for Education and Training website at: <https://set.et-foundation.co.uk/about-set>

Gresham College's free hybrid maths lectures in 2022-3

The free lectures from Gresham College have started again and are well worth a 'visit'. The next lecture will be on 11 October at 1pm. The subject is: The Maths of Coins and Currency. You can join it live or catch up later using this link [The Maths of Coins and Currencies | Gresham College](#)

There are also links there for past and future lectures.

Equals Realising potential in mathematics for all

**Success Across all Settings
SAS: Who cares wins!**

Date: 25 November 2022

Location: Parliament Hill School, London, NW5 1RL

Cost: MA members £80, Non-members £100

MATHEMATICAL ASSOCIATION
Ma
Supporting mathematics in education

Keynote speakers

Prof. Steve Chinn

Prof. Margaret Brown OBE

Our Sponsors:

MA's first Equals Conference - covers all aspects of SEND and maths learning difficulties.

When: 25th November 2022

Where: Parliament Hill School, London

Cost: £80 for members, £100 for non-members

Speakers include: Alan Edmiston, Janet Goring, Pete Jarrett, Lou Hoskin-Staples, Anne Haberfield, Amy How, Tom Hunt, Kirsty Mulholland, Les Staves and Alison Roulstone.

The conference is suitable for colleagues who are passionate about supporting all learners within mathematics. Speakers will share key learning difficulties (e.g. **autism, anxiety, dyscalculia etc.**) and how teachers can support the needs of all students.

[BOOK YOUR PLACE](#)

NANAMIC membership

Being a member of

NANAMIC is very cheap at only £20 per year for individuals or £50 per year for an institution. As a member, you can attend any of our events, including our annual conference.

NEWS EXTRA

NANAMIC continues to be active on twitter. Please follow us @NanamicCio for the latest news, updates and events.

Have you tried [Nerdle](#), the arithmetic equivalent of Wordle? Using the ten digits and the four arithmetic operators, plus the equals symbol, work out the daily equation. It might be a challenge to set for your students as well.
